Fairfax, Virginia (Remote)

PROFESSIONAL SUMMARY

Multifamily property management professional with 7+ years of hands-on experience configuring, deploying, and supporting SaaS platforms for affordable housing and rental operations - Entrata: 100K+ monthly active users, 1M+ property records, HUD/LIHTC compliance. Deep domain expertise across corporate and property-level workflows: income certification, rent calculation, lease management, and affordable housing program compliance. Strong cross-functional communicator - translated complex regulatory and technical requirements into actionable solutions for operations, leasing, and leadership teams across 120+ Agile delivery cycles. M.S. Data Analytics Engineering, George Mason University (GPA 3.87, May 2026).

CORE COMPETENCIES

Multifamily Property Management | Affordable Housing (HUD / LIHTC / HCV) | SaaS Configuration & Deployment | Customer Solutions & Escalation Management | Cross-functional Stakeholder Communication | SQL & Data Analysis | Process Improvement & Automation | Root-Cause Analysis | CRM / Salesforce | Microsoft Office Suite | AWS Cloud | REST API Integrations

EXPERIENCE

Intuit

Jun 2026 - Present

Software Engineer · Virginia, USA

- Partner with Finance and product teams to translate complex business workflows into scalable technical solutions - financial data summarization, natural-language reporting, and automated decision support.
- Integrate AI capabilities with existing enterprise systems and APIs; design structured outputs and validation rules to ensure consistent, auditable results.
- Build evaluation frameworks to measure solution quality and track improvements in accuracy, turnaround time, and operational efficiency.
- Communicate progress, blockers, and design decisions to technical and non-technical stakeholders across product, compliance, and engineering teams.

Entrata - Multifamily & Affordable Housing SaaS

Oct 2020 - Jul 2024

Senior Software Engineer · Solutions Delivery · 100K+ MAU, 1M+ property records

- Served as a **multifamily platform subject matter expert** - owned configuration, deployment, and end-to-end delivery of 20+ SaaS features for affordable housing operators and property management companies.
- Managed the annual **HUD income-limit configuration cycle** for 6 consecutive years: translated federal HUD data into ~180,000 tenant eligibility records across LIHTC, HCV, and Section 8 programs - zero compliance errors, zero client escalations.
- Diagnosed and resolved complex, cross-module integration issues by navigating data relationships, configuration dependencies, and operational workflows - reduced triage time by 40%.
- Partnered with operations, leasing, and compliance teams to surface workflow bottlenecks and deliver automation that cut manual operational work by 80%.
- Configured and validated data migrations and AWS S3 integrations for client document management; authored technical validation criteria and rollback procedures ensuring zero data loss.
- Optimized 200+ SQL queries and authored stored procedures supporting eligibility, rent calculation, and compliance reporting - 30% average performance gain.
- Mentored junior team members and reviewed 300+ deliverables; adapted communication style across leasing staff, compliance officers, and engineering leadership.

Entrata India

Sep 2018 - Oct 2020

Junior Software Engineer · Pune, India

- Built and configured affordable housing and rental management modules - leasing workflows, income certification, and compliance document generation for multifamily operators.
- Delivered data import and reconciliation solutions for **1.6M HUD/Tax Credit records**; authored validation logic to surface discrepancies before production deployment.
- Created 56 state-specific housing certification documents; supported AWS S3 cloud migration for client document management.

PROJECTS

Leasel - AI-Powered Lease Compliance Platform

Multifamily · HUD/LIHTC · HITL

Python · LangGraph · FastAPI · RAG · SQLite · HUD API - github.com/venkatalakshmiparimala/Lease_complaince_rag

Built an AI-powered document intelligence and support investigation platform for affordable housing compliance operations. Automates lease document review, income eligibility Q&A, and root-cause investigation for support tickets - with human escalation for all regulated decisions. Reduces manual lookup and triage time for compliance staff; 100% citation correctness on document Q&A across 1,240 test cases.

CrashClarity - Road Accident Data Analysis (104K Records)

Data Analysis · SQL · Reporting

Python · R · scikit-learn · SQL · GitHub Pages

Built an end-to-end data analysis pipeline on 104K+ accident records - Random Forest and Logistic Regression models (85%+ accuracy), SQL-driven data preparation, and an interactive dashboard for operational insights. Demonstrates ability to navigate large datasets and translate findings into actionable recommendations.

EDUCATION

M.S. Data Analytics Engineering - George Mason University, Virginia May 2026

GPA 3.87 · Data analysis, ML systems, process optimization, statistical modeling

B.Tech Computer Science & Engineering - JNTU Anantapur 2017

TECHNICAL SKILLS

Domain: Multifamily property management, affordable housing (HUD, LIHTC, Section 8/HCV, Tax Credit), lease compliance, income certification, rent calculation, tenant eligibility

Data & Analysis: SQL, PostgreSQL, Oracle, data modeling, query optimization, stored procedures, ETL pipelines, Python (Pandas, NumPy), R, Excel (advanced), Power BI, Tableau

Platforms & Integrations: AWS (S3, EC2, RDS, Lambda), REST APIs, SaaS configuration and deployment, Microsoft Office Suite, CRM (Salesforce), Docker, GitHub

AI & Automation: Python automation, LLM-powered workflows, RAG pipelines, AI-assisted analysis, process automation (RabbitMQ, Celery)

Communication: Technical writing, stakeholder presentations, cross-functional delivery, requirements analysis, discovery workshops
